General Provisions:

. 1 Written examinations are held at the end of the academic year, and its duration are three hours

. 2 The student of the first and third year is transferred to the following year after success in all the courses, no more than two articles of basic default except non-basic materials.

.٣ The student is not transferred from the preparatory year to the first year, and also from the second to the third year, except after his success in all the courses at this stage.

.٤ The Faculty organizes a scientific trip each year for the students of the final year at the mid-year vacation and for a week to visit places closely related to the study.

.٥ A second round exam is held in September for the failed or the absentee student with acceptable excuse from the faculty Council in one or two subjects for the preparatory and second years.

.٦ A second round exam for the fourth year will be held in September for the student who is failed or absent in one or two subjects.

– ٧ The student remains to perform the exam of the subject again in which he failed or absent in the round of September.

.٨ The academic year for each year is considered as one academic semester and includes examinations of year's activities throughout the academic year. The Faculty determines the method of performing this exam and conducts it in accordance with the distribution of grades in the regulation.

.٩ The student must follow the lectures and practical lessons in the classroom and the Faculty Council at the request of the relevant departmental councils deprive the student to apply for all or part of the examinations if he is considered that his attendance and performance of the exercises and practical requirements is not satisfactory. In this case, the student is considered to be failed in the courses in which he is prevented from applying for the exam, unless he presents an excuse accepted by the Faculty Council. He is considered to be absent from an acceptable excuse, provided that he fulfills the requirements of attendance and requirements in the courses for which he was given an excuse on the following year.
